

Installation Operation Manual
AM-6001

SIZE:90x90x205cm
SIZE:120x80x205cm

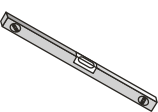

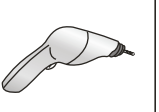

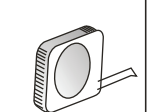

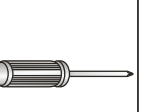

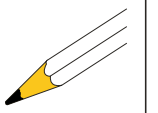

Important Reminder

1. Please install the shower enclosure according to the instruction strictly otherwise, it will affect the operational performance.
2. After opening the carton, please check the parts according to the part list.
3. Please handle the glass parts carefully, don't knock on the glass to avoid damage.
4. After installation completely, please use it after 24 hours.

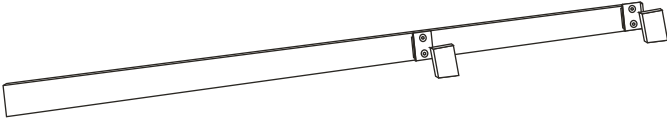

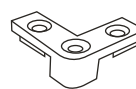

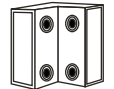

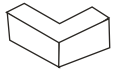

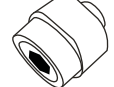

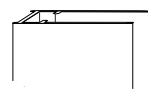

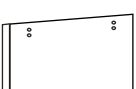

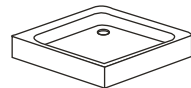

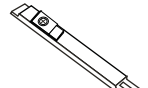

Notice

1. Do not let children, old people or disabled people enter the room alone.
2. Do not climb or hang heavy things on the shower enclosure.
3. Do not knock and impact the glass with heavy things.
4. Caution slippery on the inside of the shower enclosure.
5. Ordinary liquid detergent should be used with a soft cloth for cleaning.
6. Apply silicone to prevent water leakage.
7. Keep the tray clean, avoid hair and sundries to jam the drain.

Tools:

				
Spirit Level	5.5mm drill	Tape measure	Cross screw driver	Wrench
				
Scissors	Silicone Gun	Pencil	Rubber mallet	

Part list

 X2				
 Screws ST4X25 X8	 ST4X25 Flathead screws X5	 ST4X40 Flathead screws X5	 ST4X8 Flathead screws X4	
 Wall plug X13	 L-shaped Connector	 Corner Connector	 L-shaped cover cap	
 Glass Clip X2	 up roller X6	 bottom roller X4	 Handle X2	
 Wall Profile X2	 Fixed Glass X2	 Sliding Door X2	 Rubber Seal X4	
 Magnetic Seal X2	 Shower Tray(Available Separately)	 Bottom Rail X2	 Screw cover cap X2	
 3mm Allen Key	 4mm Allen Key	 Drill bit 3mm	 Screws ST4X10	

Installation Procedure

STEP1:

Tray assembling

Connect the waste pipe of shower tray to the waste pipe in the floor.

- Fit the shower tray(available separately) in the required position.
- If the shower enclosure is not being installed on a shower tray, please choose a suitable flooring type to fit the enclosure to.

STEP2:

Wall profiles assembling

- Measure the correct distance from the corner to the required positions of the outside of the wall profiles and mark this position on the wall with a pencil.
- Position the wall profiles against these marks and use a spirit level to ensure they are vertical.
- Using the wall profiles as a template, mark the positions of the pre-drilled holes on the wall.
- Drill the positions marked using a 5.5mm drill bit.
- Use a rubber mallet to insert the wall plugs into the holes.
- Fix the wall profiles with screws 4x25mm 「B」 .

STEP3: Fixed glass panels Assembling

- Insert the fixed glass panels into the wall profiles.
(Note: please make sure the two glass panels are vertical with each other.)

STEP4: Fixed glass panels Assembling

- Loose the pre-fixed screw 5x25mm and dis-assembled the pre-fixed plastic connectors on the top rails.

STEP5: Fixed glass panels Assembling

- Place the top rails in correct positions from the inside of glass panels, and make sure the holes on the fixed glass panels be overlapped with the holes on the plastic connectors of top rails.
- Using the screw 5x25mm to connect the fixed glass panels to the top rails.

STEP6: Top Rails Assembling

- Inert the top rails into the corner connector 「H」
- Fix it with screw washer and screw 4x8mm 「E」

STEP7: Bottom Rails Assembling Option 1: The shower enclosure is installed on the shower tray.

STEP7:

Bottom Rails Assembling

Option 2: The shower enclosure is installed on the floor.

Insert the glass clips (J) onto the fixed glass panels.

-Insert the bottom rails into the glass clips (J) .

-Connect the L-shaped connector (G) to the two bottom rails.

-Make sure the glass clips and the bottom rails be in level with the edge of shower tray.

-Use a pencil to mark the positions of the pre-drilled holes on the shower tray.

-Remove the glass clips, bottom rails and L-shaped connector, and drill the marked positions with a 3mm drill bit.

(Note: If the shower enclosure is not installed on the shower tray, but on the floor, a 5.5mm drill bit should be used.)

-Put the glass clips, bottom rails and L-shaped connector back to the position, and line up the holes with the holes drilled. Fix them with flathead screw 4x25mm (C) . Put the screw cover caps on.

(Note: If the shower enclosure is not installed on the shower tray, but on the floor, the wall plugs should be used before fixing the flathead screws 4x40mm (D))

STEP8: Sliding Doors Assembling

- Using 3mm allen key to fixate the bolt, then fastening screw with wrench (pay attention, do not very tight, the roller have to be adjust later)
- Using screwdriver to fastening the small screw downside

STEP9: Sliding Doors Assembling

- Install the up roller to the rail, then install the bottom roller, same as step 7, also do not be very tight, the roller have to be adjust later.

STEP10: Magnetic Seals Assembling

-Push the magnetic seals 「R」 onto the sliding doors. Cut into required length.

STEP11: Sliding Doors Adjustment

-Using 3MM allen key to fixate the bolt, then adjust the screw with wrench till the magnetic seal fixed well.
-Fastening the screw finally

STEP12: Rubber Seals and Handles Assembling

- Push the rubber seals 「Q」 onto the fixed glass panels and sliding doors. Cut into required length.
- Use the cross screw driver to assemble the handles.

STEP13: Cover Caps Assembling

- Put the cover caps for the rails and rollers on.
- Put the L-shaped cover cap 「I」 on.

STEP 14: Fixing Wall Profiles

- Drill holes with 3mm bit on wall profile.(Note: Do not drill through the profiles, otherwise, it will damage the profile's surface.)
- Fix it with screw washer and screw 4x10mm 「Y」 . Put the screw covers on.

STEP 15: Silicone Application

- Apply silicone sealant to all joints between wall profiles and tray.
- Do not use the enclosure for 24hours, to allow the silicone to dry completely.
